A Message from the Friends of Briar Bush Board President, David Judge:

As we convene the first Friends of Briar Bush Board Meeting since the unprecedented events surrounding the response to the COVID-19 virus, I would like to wish all the families that work for and support Briar Bush good health. As the Federal, State, County, and Township responses to COVID-19 evolve, so too will Briar Bush’s response. The number one priority right now is the health and safety of our staff, neighbors, and the animals at Briar Bush.

To that end, we are following the guidelines for closure prescribed by Abington Township. Beginning on March 12th, we began the notification process to close the Museum and cancel programs via email, website, and Facebook. Currently, the museum is closed to visitors, and staff have been directed to work from home. We will continue to monitor the situation until we have a clear reopening date. In the meantime, we have postponed or cancelled all events, programs and volunteer support through April 30th. We have a support plan in place to care for the animals at Briar Bush led by Katie Fisk. She will have help from the staff, as needed, on a rotating basis. Contingency plans are in place to ensure the animals are well cared for.

Our Communications lead, Karen Foster, will be providing regular updates on the main website and Facebook. Please take care of yourself, your family, and your neighbors.

Regards,
David Judge

President: Friends of Briar Bush
